

# Grease Safe® Handling System

Grease Storage, Handling and Identification

## Grease Handling

THE BEST PRACTICE SYSTEM FOR GREASE CARTRIDGE STORAGE, HANDLING AND IDENTIFICATION.

### BENEFITS

#### Improve Lubrication Practices

For businesses, best practice in cartridge management begins and ends with GREASE SAFE®. Simple, reliable and durable, the GREASE SAFE system provides optimal storage and handling capabilities revolutionizing the way organizations use lubricants in the work environment. Count on this leading-edge solution to deliver bottom-line results in four important ways:

#### Improve Quality

Protects cartridges from contamination, weather, and accidental damage ensuring a cleaner lubricant to help machinery run more effectively.

#### Protect the Environment

Provides ultimate cartridge protection in a durable plastic tube minimizing spillage and waste and improving OSHA compliance. A clean, safe return of used cartridges from the job site in the tubes also means less mess and environmental concerns.

The CARTRIDGE CADDY and CARTRIDGE PROTECTION TUBE are manufactured from market-leading materials for strength and durability.

Identification label enables more accurate color coded identification of cartridges.

Store and transport as many as 6 cartridges per caddy.

Ability to store cartridges provides superior workplace organization.

#### Reduce Costs

The CARTRIDGE CADDY™ and CARTRIDGE RACK™ allow for vertical storage optimizing shelf life and maximizing return on cartridge investment, since fewer cartridges need to be purchased. In addition, existing ones last longer and are better organized, not lost or hidden through the plant.

#### Improve Safety

Eliminates the frustrations associated with the way cartridges are stored and handled and attendant spillage and leaks due to cartridge damage.

### OVERVIEW

- Protects grease cartridges from contamination, weather and accidental damage
- Eliminates the frustration of trying to locate grease cartridges when needed
- Enables clean, safe return of used cartridges from site
- Improves OSHA compliance
- Optimizes shelf life with vertical storage
- Minimizes spillage and waste
- Transports cartridges easily on-site and in vehicles, with the purpose built CARTRIDGE CADDY 6-pack
- Provides superior work place organization with the wall mounted CARTRIDGE RACK

Grease Storage, Handling and Identification

## Evaluation Kit

The Grease Safe Promotional Kit comes complete with a Grease Caddy and 6 Cartridge Protection Tubes (all with black hanging hooks). Comes with;

Product	Qty	Part No.
Cartridge Caddy	1	300108
Cartridge Protection Tube	6	300000

Evaluation Kit **300500**

## Cartridge Caddy™

Enables safe and efficient storage and transport of grease cartridges from vehicle or shop to point of use.

Cartridge Caddy **300108**

## Cartridge Protection Tube™

Protects grease cartridges from damage and weather and

provides for color coding and safe, clean transport from vehicle or shop to point of use. Comes ex-factory with black hanging hook.

Cartridge Protection Tube **300000**

## Cartridge Tube Hanging Hook

Enables the color-coded identification of grease cartridges within the protection tubes and provides the ability to hang grease cartridges up for complete organization in the workplace. Select hook colors of your choice to fit to your CARTRIDGE PROTECTION TUBE.

Beige	300300
Black	300301
Blue	300302
Dark Green	300303
Gray	300304
Green	300305
Orange	300306
Purple	300307
Red	300308
Yellow	300309

## Cartridge Rack™

Facilitates the vertical storage and organization of grease cartridges for maximum life and ease of location and access.

Cartridge Rack **300208**

## Label Wrap™

Clear and durable LABEL WRAP houses a LABEL SAFE LABEL POCKET inserted inside. Enabling color coding and identification of grease guns, autolubricators, air breathers, spray cans, and other suitably sized cylindrical objects.

Label Wrap **206000**

Color-coded hooks enable easy identification of grease cartridges

Wall-mounted rack is strong and durable - eliminates the frustration of trying to locate grease cartridges when needed.

Fully integrated cartridge management - GREASE SAFE®, CARTRIDGE PROTECTION TUBE™, CARTRIDGE CADDY™, and CARTRIDGE RACK™ facilitate easy and safe transport of cartridges from vehicles or shop to point of use

Hang cartridges vertically for easy access.

Transparent containers support quick identification of contents.

Store up to 12 cartridges per rack.

Tube protects grease cartridge from contamination, weather, and accidental damage.

Integrate GREASE SAFE® with OIL SAFE® and LABEL SAFE™ to manage your fluid transfer from bulk storage to point of use. Our portfolio of products combine to form a revolutionary system that protects lubricants from contamination, reduces machinery down time, and minimizes dangerous and costly spills.

### Hooks available in 10 colors;
