

Cubet Poly Storage Systems

Lubricant Storage & Dispensing Systems

Lubricant Handling

CUBET POLYETHYLENE BULK STORAGE SYSTEMS ARE A SIMPLE SOLUTION TO YOUR BULK FLUID STORAGE NEEDS. MANUFACTURED FROM FOOD GRADE HD POLYETHYLENE THESE SYSTEM ARE SUITABLE FOR STORING OILS, GLYCOL, CUTTING FLUIDS, AND A HOST OF OTHER FLUIDS.

BENEFITS

Simplified Lubricant Storage

Oil drums were okay in their day, but there is a better way to handle all kinds of oils, lubricants and industrial fluids that's easier, safer, cleaner, and more cost efficient.

Reduced Labor

Inefficient transfer of product can not only lead to safety problems, it can also result in increased clean-up, labor costs, and purchase of adsorbants. Drums and pumps require tipping, cleaning, switching, and replacing. When products are not stored close to the work area, going to the product wastes time.

Reduced Space and Inventory

With drums, actual inventory is a guessing game that can result in product shortages or costly extra drums of back-up product. Drums waste a lot of space. For example, nine 65 gallon (205 litre) drums require about 120 square feet (11 m²), compared to three Cubet triple container systems that requires only 22 square meters (2 m²) of floor space. Drum pumps leave from 1 to 4 gallons (5-15 litres) of product in "empty" containers. This can add up to hundreds of dollars annually.

Large Capacity Storage

Cubet storage containers are available in 70, 120, 145, 230 and 330 gallon sizes (265, 440, 550, 870 and 1250 Liters). The additional capacity allows you to pump all of the product out of a 65 gallon (205 litre) drum and into the system before the overhead container is empty. This reduces the downtime of employees changing drum pumps, and allows you to send drums back on the delivery truck. No more drum deposits.

The Innovative Solution

Now you can eliminate drum storage forever with the Cubet Poly Storage Systems. There are 9 standards systems available to meet your requirements, and a range of accessories from stands and secondary containment to dispensing hose reels, air pumps and totalizing meters. All containers are made from food grade HD Polyethylene and are ULC approved.

OVERVIEW

- Clean, efficient product transfer.
- Spill containment.
- No wasted product.
- Store product next to the work area.
- Full regulatory compliance, ULC listed.
- Modular, expandable.
- No drum cleaning, tipping, switching or replacing.
- Product level in both gallons and liters always visible.
- Takes up much less floor space.
- Food grade HD Polyethylene.
- Optional stands, drip trays, pumps, hose reels, and dispensing meters.

Cubet Poly Storage Systems

Lubricant Storage & Dispensing Systems

STANDARD SYSTEMS

1 container
[PLS2651F24DT1]

3 container
[PLS2653F24DT3]

Poly Storage System 70 Gallon (265 Litre) Tanks

Size of container:
70 Gallons (265 liters)
Dimensions (L X W X H):
33" x 33" x 20"
(84 cm x 84 cm x 51 cm)
Weight (each container):
46 lbs (20.9 kg)
Stand Height:
18" (46 cm)

1 container
[PLS4601F24DT1]

2 container
[PLS4602F24DT2]

Poly Storage System 120 Gallon (440 Litre) Tanks

Size of container:
120 Gallons (440 liters)
Dimensions (L X W X H):
33" x 33" x 33"
(84 cm x 84 cm x 84 cm)
Weight (each container):
63 lbs (28.5 kg)
Stand Height:
18" (46 cm)

1 container
[PLS5501F24DT1]

2 container
[PLS5502F24DT2]

Poly Storage System 145 Gallon (550 Litre) Tanks

Size of container:
145 Gallons (550 liters)
Dimensions (L X W X H):
33" x 33" x 41"
(84 cm x 84 cm x 104 cm)
Weight (each container):
75 lbs (34 kg)
Stand Height:
18" (46 cm)

FULL SYSTEMS

Poly Container Systems 2 x 2 - 70 Gallon Tanks [PLS2654RSPHR]

Poly Container Systems 3 x 2 - 70 Gallon Tanks [PLS2656RSPHR]

Systems come equipped with individual three-way operation lubrication dispensing systems for each tank including; air pump, dispensing and suction hoses with on/off handle and quick-connects, desiccant air breather, oil filter, gauges and connections.

OPTIONS

Bulk Storage Systems

- 230 Gallon (870 Litre)
- 330 Gallon (1250 Litre)

System Accessories

- Secondary Containment
- Hose Reels
- Air Pumps
- Totalizing Meters
