WEAR CONTAMINATION **FLUID CONDITION** **NORMAL SEVERE NORMAL**

Machine Id

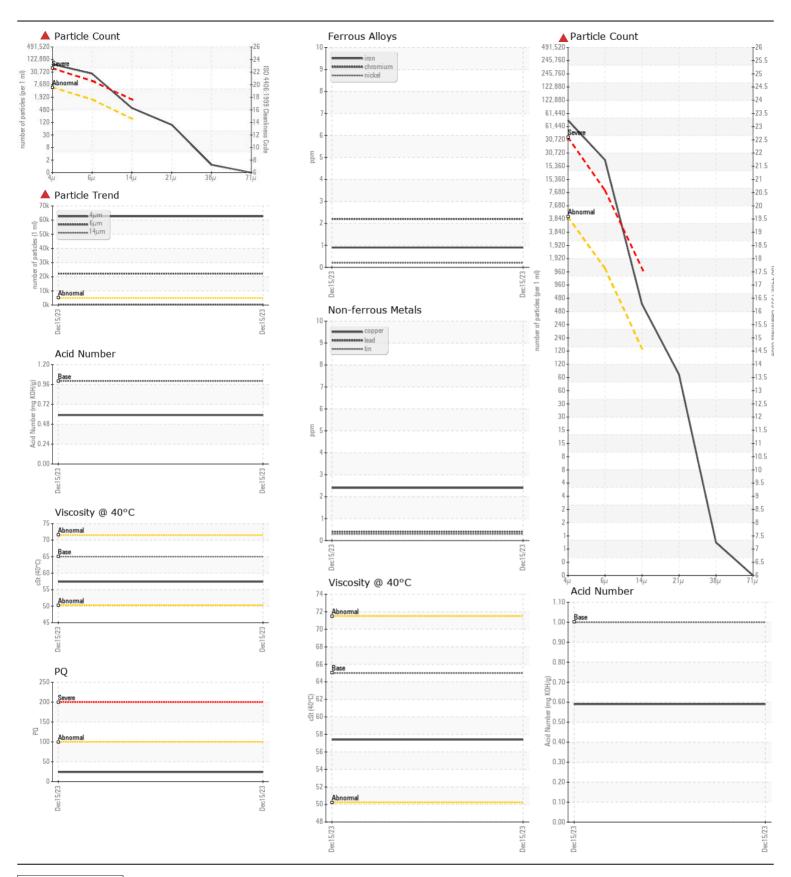

JOHN DEERE 648L-II 1DW648LBENF716008

Hydraulic System

JOHN DEERE HYDRAU (--- GAL)

RECOMMENDATION We advise that you check all areas where contaminants can enter the system. We advise that you perform a filter service, and use off-line filtration to improve the cleanliness of the system fluid. The air breather requires service. If unrated, we recommend that you replace with a suitable micron rated and/or desiccant air breather. If rated, we recommend that you service/replace the breather. Resample in 30-45 days to monitor this situation.	Test	UOM	Method	Limit/Abn	Current	History1	History2
