| We advise that you check the fuel injection system. The oil change at the time of sampling has been noted. We recommend an early resample to monitor this condition. | Sample Number | | Client Info | | GFL0110280 | GFL0102811 | GFL009046 |

| The BN result indicates that there is suitable alkalinity remaining in the oil. Fuel is present in the oil and is lowering the viscosity. The oil is no longer serviceable due to the presence of contaminants. | Barium | | ASTM D5185m | | 0 | 0 | 0 |
