

# **OIL ANALYSIS REPORT**

Sample Rating Trend

Machine Id

#### 300607 Component Diesel Engine Fluid PETRO CANADA DURON SHP 10W30 (--- QTS)

## DIAGNOSIS

### Recommendation

Resample at the next service interval to monitor. Please specify the component make and model with your next sample.

### Wear

Metal levels are typical for a new component breaking in.

### Contamination

There is no indication of any contamination in the oil.

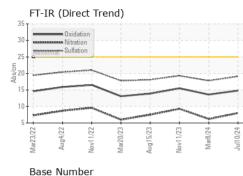

#### Fluid Condition

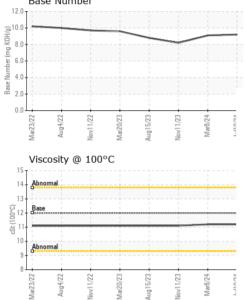

The BN result indicates that there is suitable alkalinity remaining in the oil. The condition of the oil is suitable for further service.
