Barium	ppm	■ 2	■ 2	■ 0	---
Boron	ppm	▲ 260	▲ 255	■ 255	---

Diagnosis

The oil change at the time of sampling has been noted. Resample at the next service interval to monitor. All component wear rates are normal. There is no indication of any contamination in the oil. The oil viscosity is lower than normal. Additive levels indicate the addition of a different brand, or type of oil. Confirm oil type.
