**Hydraulic System** 

SHELL TELLUS S2 MX 32 (30 LTR)

# Sample Rating Trend ISO

## **DIAGNOSIS**

#### Recommendation

We recommend you service the filters on this component. We recommend an early resample to monitor this condition.

All component wear rates are normal. The ferrography results are normal indicating no abnormal wear in the system.

#### Contaminants

There is a moderate amount of silt (particulates < 14 microns in size) present in the oil.

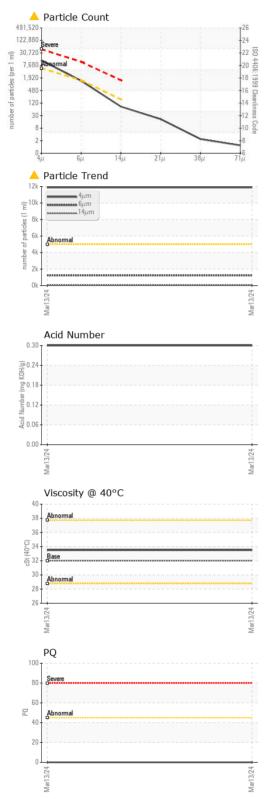

#### **Oil Condition**

The AN level is acceptable for this fluid. The oil is still serviceable provided that the contaminant(s) can be reduced to acceptable levels.

### WEAR

All component wear rates are normal. The ferrography results are normal indicating no abnormal wear in the system.
