Change Filter			?	Oil and filter change at the time of sampling has been noted.		

## HISTORICAL DIAGNOSIS

## 21 Feb 2023 Diag: Angela Borella

The filter change at the time of sampling has been noted. Resample at the next service interval to monitor.All component wear rates are normal. There is no indication of any contamination in the oil. The AN level is acceptable for this fluid. The condition of the oil is acceptable for the time in service.

view report

## 23 Aug 2022 Diag: Jonathan Hester

Oil and filter change at the time of sampling has been noted. Resample at the next service interval to monitor.All component wear rates are normal. Free water present. The AN level is acceptable for this fluid. The condition of the oil is suitable for further service.

### 11 May 2021 Diag: Angela Borella

Oil and filter change at the time of sampling has been noted. We recommend an early resample to monitor this condition.All component wear rates are normal. There is a light concentration of water present in the oil. The AN level is acceptable for this fluid. The condition of the oil is suitable for further service.

## DIAGNOSIS

#### A Recommendation

Oil and filter change at the time of sampling has been noted. Resample at the next service interval to monitor.

#### Wear

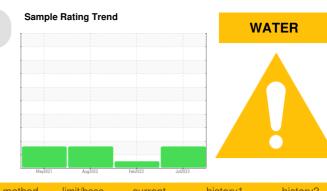

All component wear rates are normal.

Contamination

Free water present.

### Fluid Condition

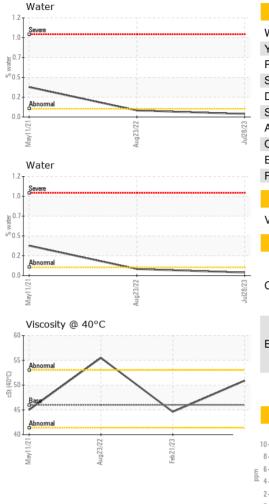

The AN level is acceptable for this fluid. The condition of the oil is suitable for further service.
