OIL ANALYSIS REPORT

Sample Rating Trend

NORMAL

Area Portage UEHA Component Drum of Oil MOBIL ATF (--- GAL)

Parker

Recommendation

This is a baseline read-out on the submitted sample. (Customer Sample Comment: Please add Karl Fischer test. If possible also measure relative humidity at room temp. We are trying to get a comparison vs a RH% meter device we have on this work center. Related sample ph0001860 is known to have water contamination.)

Contamination

There is a trace of moisture present in the oil.
