DIAG	

## Recommendation

Resample at the next service interval to monitor. Please specify the component make and model with your next sample. Please specify the brand, type, and viscosity of the oil on your next sample.

## Wear

All component wear rates are normal.

## Contamination

There is no indication of any contamination in the

## **Fluid Condition**

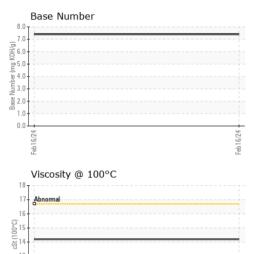

The BN result indicates that there is suitable alkalinity remaining in the oil. The condition of the oil is suitable for further service.
