

### **OIL ANALYSIS REPORT**

Sample Rating Trend

# Area DICK LAVY **DICK LAVY 4956**

Rear Differential Fluid {not provided} (--- GAL)

#### DIAGNOSIS

#### Recommendation

The oil is near the end of it's useful service life, recommend schedule an oil change. Resample at the next service interval to monitor.

#### Wear

All component wear rates are normal.

#### Contamination

There is a high amount of silt (particulates < 14 microns in size) present in the oil.

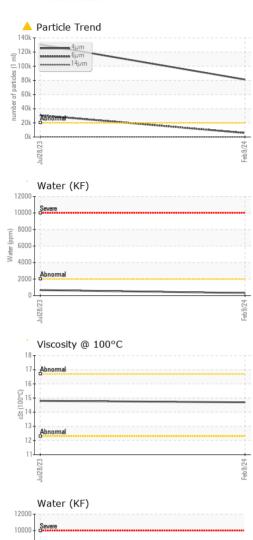

#### Fluid Condition

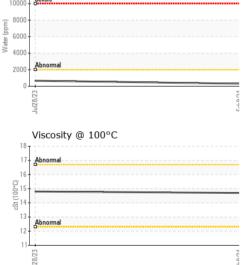

The AN level is at the top-end of the recommended limit.
