

## **OIL ANALYSIS REPORT**

Machine Id

10-589L Component Transmission (Manual) Fluid {not provided} (--- GAL)

### DIAGNOSIS

#### A Recommendation

The fluid change at the time of sampling has been noted. No corrective action is recommended at this time. Resample at the next service interval to monitor.

#### Wear

All component wear rates are normal.

#### Contamination

There is a light concentration of water present in the fluid.

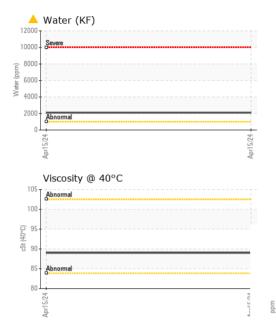

#### Fluid Condition

The condition of the fluid is acceptable for the time in service.
