

OIL ANALYSIS REPORT

SMO-30 [280040] PNEUTECH HOP324467 - LARRY RUSECH

Component Compressor

DIAGNOSIS

Recommendation

We suspect abnormal contamination may be due to sampling method. Oil and filter change at the time of sampling has been noted. Resample at the next service interval to monitor. Please specify the brand, type, and viscosity of the oil on your next sample.

Wear

All component wear rates are normal.

Contamination

Moderate concentration of visible dirt/debris present in the oil.

Fluid Condition

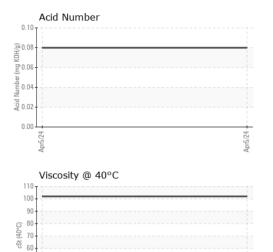

The AN level is acceptable for this fluid. The condition of the oil is suitable for further service.
