

## **OIL ANALYSIS REPORT**

### Area CURING [10024306968] B32404 - SOUTH BLENDER VAT DUMPER

Hydraulic System

PETRO CANADA PURITY FG AW HYDRAULIC 46 (--- GAL)

#### DIAGNOSIS

#### Recommendation

We recommend you service the filters on this component. Resample at the next service interval to monitor. We were unable to perform a particle count due to a high concentration of particles present in this sample.

#### Wear

All component wear rates are normal.

#### Contamination

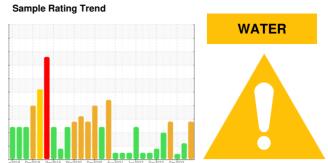

Appearance is milky. Moderate concentration of visible dirt/debris present in the oil. There is a light concentration of water present in the oil.

#### Fluid Condition

The AN level is acceptable for this fluid. The condition of the oil is acceptable for the time in service.
