

| Metric | Score | Target | Mark |
|--------------------|-------|--------|---------|
| Program Health | 48.1 | 70 | ⚠️ 48.1 |
| Sample Conformance | 6.8 | 80 | ❌ 6.8 |
| Fleet Health | 64.4 | 75 | ⚠️ 64.4 |
| Lab Turn-Around | 1.4 | 2 | ✅ 86.7 |
| Sample Latency | 13.5 | 4 | ❌ 30.2 |
| Data Compliance | 83.5 | 75 | ✅ 83.5 |
| On-line Submission | 16.6 | 75 | ❌ 16.6 |

Program Health
Overall score indicating the oil analysis programs compliance to key metrics.

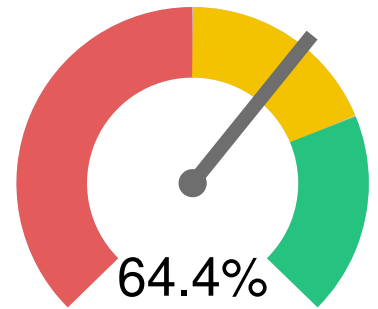

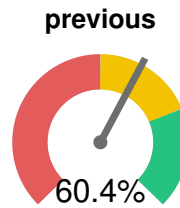

Sample Conformance
The number of machines in your fleet that have been sampled during the current period.

❌ **Sample Conformance**

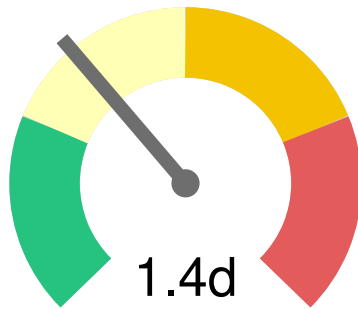

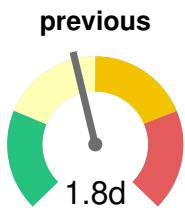

Fleet Health
Measures the number of components in your fleet that have no oil or wear related problems.

⚠️ **Fleet Health**

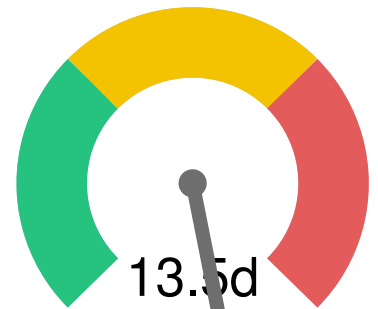

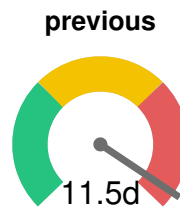

Lab Turn-Around
Time from when the sample arrives at the laboratory until the sample is ready for viewing on-line.

✅ **Lab Turn-Around**

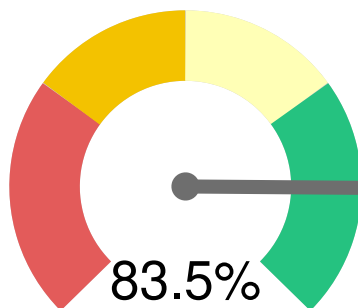

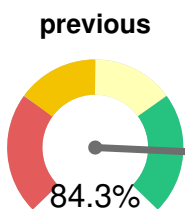

Sample Latency
Indicates the amount of time from when the sample was taken until it arrives at the laboratory for analysis.

❌ **Sample Latency**

Data Compliance
A calculated score given based on the oil sample information provided at the time of sample submission.

✅ **Data Compliance**

On-line Submission
The quantity of oil samples that are entered on-line or using the oil analysis app.

❌ **On-line Submission**
